## **Ahmarra continuing to provide customers with doorsets needs**

***Ahmarra has continued to manufacture during the Covid-19 crisis, while making significant changes in the way it works to protect the health of staff and support the rest of the country.***

By following Government recommendations for hygiene and social distancing, enabling office staff to work from home to assist with specifications, tenders & project management, and working closely with the supply chain, Ahmarra is able to keep supplying customers with doorsets, glazed screens and ironmongery. Both manufacturing and sales team are fully operational.

A recent project completed using Ahmarra high quality bespoke doors was for [Magna Carta Park](#) in Surrey. Part of the Royalton Group of residences, this luxurious private estate is surrounded by acres of beautiful parkland and the homes are designed with a contemporary take on classical architecture.

Main contractor Midgard selected Ahmarra to manufacture 800 bespoke panel doors from its [Artisan Panel Door Collection](#) for this prestigious development. They chose elegant, Windsor 3B three panel doors with an ornate moulding profile and an understated bespoke grey stain that was formulated specifically for this project.

The project included single doors, double doors and pocket sliding doors. The neutral colour and natural finish of the doors complement the warm yet refined design scheme perfectly.
