Ash & Lacy supports RBL Poppy Appeal with sales pledge

The team at Ash & Lacy are making a special effort to support the Royal British Legion's Poppy Appeal this year, as the charity struggles to fundraise during the ongoing Covid-19 restrictions.

The company is donating 1p for every 'Poppy Red' fixing it sells through November in remembrance of those from the Second World War generation.

So far, nearly 3.5 million Poppy Red fixings, rivets and caps have been sold this year to projects all over the UK and globally. So, the team is hoping that our customers will support them in raising as much money as possible during November to recognise and acknowledge the incredible sacrifice and dedication of the few for the future of the many on Remembrance Day and beyond.

Ash & Lacy's range of carbon steel, stainless steel, 316 stainless options, provide the ultimate fixing solution for almost any application. An extensive range is available suitable for all built-up roofing and cladding systems and composite panel applications with colour headed options available in a full range of BS and RAL colours – including Poppy Red!

Colour headed fixings are available in two head forms and a number of washer options covering roof, wall and rooflight applications, with drill points available for light and heavy section steel, stitchers and timber. Manufactured from corrosion-free, UV stabilised nylon, the colour head is integrally moulded onto stainless/carbon steel hexagonal head form with 14mm flange to eliminate any risk of becoming detached.
