Balcony Systems Creates Perfect Balcony for Welsh Coast House

Perched on a steep slope overlooking Fishguard and the Irish Sea, the aptly-named Ty'r Arfordir 'Coast House' retains its expansive views with a clear glass balcony supplied by UK balustrading specialist Balcony Systems.

Keith and Chad Young specified the Balcony 1 system measuring more than 12 metres with 10mm clear toughened glass and handrail finished in RAL 7016 Anthracite Grey for their spectacularly-sited self-built home in far West Pembrokeshire.

After Keith retired from a career in air traffic control, the couple moved from Hampshire to buy the plot in Pembrokeshire where Chad had retained family connections and to realise their self-build dream. A glass balcony spanning the living area and master bedroom was top priority to keep the sweeping views.

"The Balcony Systems balcony is great value for money, very competitively-priced and the clear glass enhances the fantastic views, which was also very important," said Keith.

"Another key factor in choosing Balcony Systems was their ability to supply the handrail RAL colour in the same shade as that used on the external trim of the house to ensure everything blended in. It matches the decking, roof materials and other glazing and looks fantastic!"

Balcony Systems' efficient planning, design and delivery service also impressed Keith, who added: "Being glass, the balcony is low-maintenance and complements perfectly our home's modern, open-plan design, while also providing protection on windier days. It's a delightful addition to our home and a great place from which to take in the superb views."

Balcony Systems is a specialist in sophisticated glass and aluminium balustrading solutions and stunning curved patio doors. Straight or curved external and Juliet balconies are supplied to exact client specifications.

From single balustrades to multi-apartment developments, the company works with architects, designers and specifiers to deliver the most cost-effective, stylish and durable balustrade solution.
