Broughtons to Exhibit at Home Show Bristol

On Saturday & Sunday 29th/30th October 2011 Broughtons will be exhibiting at the Home Show Bristol, at the UWE (University of West England) Exhibition Centre.

The Leicestershire supplier of period lighting, ironmongery and other period household and garden products welcomes the chance to meet up with existing and new customers.

The company will have its new exhibition unit on Stand 117, where some of Broughton's favourite products will be on display together with samples and literature. Chris Taylor (Dip GAI) Sales Manager and Jonathan Allcock will be on hand to answer any product questions and tell visitors a bit more about Broughtons, and what the company can offer for the period home owner.

There will also be the opportunity to evaluate samples from the showroom (size permitting) at the exhibition. Anyone wanting to use this service should contact chris@broughtons.com and a timed appointment can be arranged to go through any samples selected.

Broughtons will be delighted to accept an order of any size and can give a quote at the show – offering free delivery (UK Mainland) as a thank you for visiting.

We have many customers in the West of England and it would be great to meet up. Advanced Tickets are available at <http://www.thehomeshowbristol.co.uk> £6 Adult using code: HSL - alternatively please telephone 0117 907 1000 (or call Broughtons).
