## Bespoke Bedside Brackets for Norwegian Epic Cruise Ship

*Creating a unique bedside bracket for the suites of Norwegian Epic cruise ship, Chelsom teamed a contemporary chrome LED reading bracket with a stunning shade which stretches soft white PVC across a multi-faceted frame. An internal wrapped cylinder diffuses the light source to provide subtle illumination for these luxury staterooms.*

Designed in part by Tillberg Design, cruise line specialists, the interior design scheme throughout the ship is fresh and fun, offering innovative and flexible accommodation for a variety of guests. The lighting brief required contemporary fittings throughout the ship which were highly functional yet unique in appearance.

Will Chelsom, who spearheads the Chelsom cruise lighting division comments: "This bespoke design cleverly blends two of our best selling ranges into a striking fitting which is perfect for this environment. The LED flexi-arm offers excellent reading light; the main part of the fittings is low energy and finished in contemporary chrome and the PVC shade is very easy to maintain."
