

Press Release
22nd June 2010

DTE Launches New Website

Leading engineered wood product manufacturer and supplier Donaldson Timber Engineering Ltd (DTE), is launching a brand new website today at

The website can be found at <http://www.donaldsontimberengineering.co.uk>.

The website has been redesigned with a vibrant new look, up to date content and a user-friendly design. It provides clear information about the company, with a focus on DTE's industry leading products and services.

Featuring fresh new branding, the site presents details about each of DTE's products, as well as downloadable literature and case studies from the company.

Communications Manager for Donaldson's, Holly Ingram explains:

"We decided we needed a website which fulfilled the expectations of our customers and reflected our status as a leading company in the industry.

"The website has been designed to provide users with all the information they require in a simple format, to make the experience of the site easy and enjoyable."

Managing Director of DTE, Jonathan Fellingham comments:

"We're delighted with the new website. I think the modern, user-friendly design will prove very successful with our customers, as well as presenting an excellent image to newcomers

to the company. The website will be regularly updated with news and interesting projects, so add it to your favourites and keep coming back for further information.”

Ends
