## **Dorset Lifts recognized for quality service and expertise**

***Dorset Lifts, a well-established name in the lift industry, has solidified its reputation for excellence through a dedication to quality, exceptional customer service, and an extensive product range. The company's growing portfolio of clients is a testament to the reliability and comprehensive support they provide to every project.***

With over 30 years of industry experience, Dorset Lifts has amassed a significant depth of knowledge and expertise. This extensive experience allows the company to tailor its products and services to meet the unique requirements of each client, ensuring a customized solution that exceeds expectations.

Dorset Lifts holds the prestigious ISO 9001:2015 certification for the supply, installation, modernization, repair, and servicing of lifts. This accreditation encompasses not only their production and administrative processes but also highlights the high standards upheld by their on-site engineering teams. Additionally, the company is certified by Lift Cert Ltd under ISO 9001:2015 and is compliant with the 2016 lift regulations (Lifts Directive 2014/33/EU Annex XI).

Dorset Lifts also adheres to the rigorous standards of BS OHSAS 45001:2018 for Occupational Health & Safety Management Systems and BS EN ISO 9001:2015 for Quality Management Systems. The company is a proud member of the Lift and Escalator Industry Association (L.E.I.A.), further cementing its commitment to excellence within the sector.

Health and safety remain a top priority for Dorset Lifts, with policies regularly reviewed and implemented across all operations. The company has been assessed and approved by CHAS and Mentor Services, demonstrating their ongoing commitment to upholding the highest safety standards.

Specialising in the supply, installation, and testing of lifts ranging from 4 to 33 persons, Dorset Lifts ensures that every lift complies with current EN 81 and British standards. These lifts are available to operate on a variety of power supplies, including 415V 3-phase, 480V 2-phase, and 240V single-phase. When required, lifts can be fully compliant with the Disabled Discrimination Act (D.D.A - EN81:70), offering accessibility solutions for all.

All Dorset Lifts installations are provided with a 12-month warranty and service as standard, reinforcing their commitment to long-term customer satisfaction.
