ESF Supports Popeyes exciting first restaurant opening in Ireland

A landmark occasion has arrived as Popeyes opens its first-ever restaurant in Ireland with the support of ESF! Known for its world-famous Louisiana-style fried chicken, Popeyes has grown since 1972 to include thousands of locations across more than 30 countries.

ESF is proud to play a role in this major debut by providing premium Stainless Steel Bollards from the Street Collection. These high-quality bollards are designed to enhance both the safety and aesthetics of the new Popeyes site, helping manage large crowds and secure the bustling entrance as excited guests line up to experience Popeyes' celebrated flavours. This partnership is a testament to ESF's dedication to delivering perimeter security solutions that enhance both functionality and design.

The collaboration with Popeyes reflects ESF's commitment to supporting dynamic commercial spaces with top-tier safety solutions that meet the needs of high-traffic venues. ESF are excited to be part of this historic opening and to provide lasting value to the new location.
