FAKRO topSafe Wins Excellence Award

FAKRO's topSafe[®] roof window safety and security system has won the 2011 Home Building & Renovating magazine 'Product Excellence Award' for Building Components.

Details of the awards will be highlighted in the self-build magazine and at the National Homebuilding & Renovating Show at the NEC, Birmingham, from 24th - 27th March 2011.

As a means of burglary deterrence, topSafe is now routinely used in all FAKRO products. Photographic evidence has recently showed how, despite evident use of a crowbar, an attempted break-in via 3 FTP-V centre pivot windows failed.
