## Fläkt Woods' JMv nominated for H&V Award

***Fläkt Woods has been shortlisted for 'Air Movement Product of the Year' at this year's prestigious H&V Awards. Fläkt Woods designs and manufactures a wide range of ventilating products and has been nominated for its new JMv Aerofoil fan.***

Fläkt Woods recently introduced the new [JMv axial fan](#) to its product offering with the sole purpose of making sure the customers' needs were taken into consideration with regard to energy consumption.

The new innovative fan can save end users an outstanding 24 per cent on running costs compared to other products available on the market, and is a pioneering, highly efficient solution for the catering and hospitality sector in particular. With versatility being integral to Fläkt Woods' design, the JMv can also be used for general ventilation and smoke extract applications to improve indoor climate and preserve life.

The nomination is great recognition for Fläkt Woods, as it demonstrates all the hard work that has gone into the new product range from all areas of the company, a great team effort. The award winners will be announced at a presentation evening on April 21.

Fläkt Woods, with over 100 years of experience within the ventilation market, has proven to offer high quality products and continual development for their customers' needs making Fläkt Woods a name you can trust and rely on.
