Forticrete pushed to the limit to help raise money for Age UK

Supported and sponsored by colleagues, family, friends and suppliers, 34 staff from Forticrete, one of the UK's leading manufacturer of concrete construction products, has helped to raise money for Age UK Milton Keynes after they took part in the 16th Milton Keynes Dragon Boat Festival.

With nearly 50 teams and an audience of approximately 14,000 people, the Milton Keynes Dragon Boat Festival is one of the largest one-day charity dragon boat events in the country. As the event's designated charity, Age UK Milton Keynes works with older people to ensure they have the support to remain independent without feeling isolated and lonely.

John Lambert, Managing Director at Forticrete, commented: "We are over the moon with the effort put in by everyone - it was great day and a lot of fun was had by everyone involved.

"With all money raised going to such a worthwhile cause, we are extremely grateful to each and every member of the team that took part and the overwhelming support of those that sponsored us."
