Hazlemere Commercial Launches New Dedicated Commercial Aluminium Products Website

Hazlemere Commercial, a major Division of the Hazlemere Group (established since 1985), has launched a new website dedicated to aluminium glazing products.

Hazlemere Commercial was formed in 1992, quickly building a reputation as independent double glazing manufacturers for designing, fabricating and installing high quality architectural aluminium products for the UK commercial market sector. Hazlemere Commercial works with architects, surveyors and main contractors as well as building owners and property managers supplying and installing curtain walling, commercial windows and commercial doors.

Working with the industry's leading system suppliers like Reynaers, Sapa and Bowaters, Hazlemere Commercial's expertise and initiative have contributed to the success of a wide variety of substantial projects. Their experience and technical competence at carrying out work to the most exacting standards means that much of their work is repeat business from their expanding client base.

Hazlemere Commercial is part of the LHC A5 framework arrangement – LHC Bulk Quotation arrangements – Aluminium Windows & Doors – A5 Programme 2011 and 2012. Hazlemere Commercial also specialises in school refurbishment work, for example the division is part of the Milton Keynes Council Framework Agreement.

Whether a project is new build, refurbishment, design & build or remedial work, Hazlemere's Commercial's team has the expertise, capability and stability to ensure a successful outcome.

The Hazlemere Group is dedicated to the quality of products and services it provides, so has been accredited since 2001 to ISO 9001:2008 for the supply and installation of commercial doors and windows, including well established aluminium double glazed profiles like Sapa Dualframe, Reynaers CW50/CS68 and Bowaters System10 Aluminium.

For further information contact Simon Keegan, the Commercial Sales Director, on 01494 897600 or email s.keegan@hazlemere.co.uk or visit Hazlemere Commercial's new website www.hazlemerecommercial.co.uk
