High Care Air Adds another Design Review

Fabric ducting specialist High Care Air has uploaded another Design Review to its website to further benefit those looking for assistance and direction on fabric ducting.

The latest downloadable Design Review, available via the [Projects Reviews page](#) on the HCA web site, is about [Swimming Pools](#) and gives detailed information on the design needs and applications associated with this specialised area.

It joins a similar review outlining the ventilation and fabric ducting requirements of [Sports Halls](#).

High Care Air has announced it is currently testing several exciting product innovations.
