## **Perfectly simple paving using Ultrascape by Instarmac**

***What do most contractors find the most annoying where their paving projects are concerned?***

The amount of time spent jointing, not being able to complete works in the wet, very expensive air-cured products, cracking or sinking of joints and having to re-pave every 2 years, wastage, long curing times, the list is sometimes endless. If you could buy a product that eliminates all of these problems, would you?

With Ultrascape Flowpoint rapid setting flowable grout you can, just add water, pour, wash and job done!

Ultrascape Flowpoint:

- ✓ will dramatically reduce the time spent jointing,
- ✓ can be used in wet weather conditions,
- ✓ is much cheaper than an air cured jointing compound,
- ✓ will not crack or sink,
- ✓ has minimal wastage,
- ✓ can be walked on in just an hour and driven on in 4 hours.

Spent the summer clearing weeds? Ultrascape Joint Fix has the answer.

Prevent sand loss, water ingress and weed growth with Ultrascape's liquid sealing membrane – available in 25Lt drums.

### **Ends**
