Kevala Stairs in Partnership with Siller Stairs

Kevala Stairs is proud to announce that it has become the UK partner of Siller Stairs, the leading specialist in glass stairs and outstanding new stair designs.

Based in Italy, Siller produces, delivers and installs glass stairs worldwide.

In the sector of designer stairs (pictured) there are only very few on the market who can compete with the floating and simple designs of Mr Siller himself. Over the last 25 years he has contributed many innovations to the staircase industry, discovering glass as the future design element for stairs some 15 years ago.

The partnership with Siller Stairs is part of Kevala's continued growth and success in meeting the increasing demand in the UK for distinctive staircases of exceptional quality.
