Spreading Komfort and Joy in the South

Komfort Workspace has appointed three new sales managers for the south of England, giving the specialist partitioning company a full team on the ground in the south of England.

The new Specification Sales Manager, Richard Bryant, has worked with architectural practices and contractors across the UK and Ireland and has an extensive background specifying products, including architectural metal work and suspended ceilings, across the commercial, health, leisure and education facilities.

The team is further supported by the addition of two new Area Sales Managers (pictured) – Tim Horrocks (right) and James Wing. Tim has previously worked with Komfort, heading up their ceiling and drywall business between 1989 and 2000 and being responsible for all elements of the development of the distribution side of the business. In more recent roles Tim has managed external sales teams for both SAS Direct and CPD Distribution and brings a wealth of expertise and knowledge to Komfort.

James Wing has had a varied career working as both an estimator and sales operative, roles which he feels can benefit Komfort's customers: "My experiences on working on both sides of the fence in distribution and contracting and will be able to help my customers out with any contracting and estimating issues they may have, and being on the contracting side for the past six years I feel I can relate to the customers' day to day issues with quoting and ordering materials."

Clive Perry, Commercial Director at Komfort, added: "We welcome Tim, James and Richard to Komfort and look forward to utilising their collective experience to reinforce our position in the south of the UK."
