## **Komfort Strengthens Southern Region with Two New Appointments**

***Partitioning specialist Komfort has announced two new appointments to strengthen its Southern region.***

Tim Surman joins Komfort as Sales Director covering the south of the UK – a market he knows well thanks to the 20 years of experience in system partitioning. Tim brings with him a wealth of knowledge and experience having previously worked for Clestra Hauserman where he was Managing Director. Based in Komfort's head office in Horsham, Tim will be responsible for the southern sales team.

Glenn Davies comes to Komfort as a Specification Manager reporting directly to Tim.

For the past seven years, Glenn has held the role of Sales and Specification Manager at Duvale Plc where he has gained a wealth of knowledge dealing with architects, interior designers and main contractors primarily within the London area.

Simon Walden, National Sales Director at Komfort, said: "Tim's expertise will be invaluable as we pursue our business goals to grow by developing new products and further reinforce our service to new and existing clients. We have tasked Glenn with driving forward specifications at Komfort and raising our profile further within the specification market place."
