

**Press Release**  
**February 10<sup>th</sup> 2011**

## **Any Graphic, Any Doorset Anywhere**

***Leaderflush Shapland, the UK's leading doorset manufacturer, launches Envision (patent application number 0907913.8) – the innovative and exclusive new facing option. With Envision, your doorset design is limited only by your imagination.***

This translucent door facing material enables the intricate detail of high definition, photographic images to be incorporated into a factory assembled doorset. Any image or design is digitally reverse printed and encapsulated behind 2mm of material, providing image protection against wear.

Envision can be specified for use on any doorset within the Leaderflush Shapland Designer, Plasform<sup>®</sup> and Extended Performance ranges, providing specifiers with the ultimate in design freedom, without compromising performance.

Due to its versatility and diverse visual capability, whether it is a photograph or block graphic, Envision can be specified for use in a broad spectrum of applications; anywhere from schools and medical centres to corporate offices and leisure facilities. Envision opens up creative opportunities, previously unavailable to specifiers and designers, to make their project truly unique.

With Envision, Leaderflush Shapland can help clients transform an everyday feature, the doorset, into a truly unique focal point of any room or building. For more information or to discuss design requirements, please contact Leaderflush Shapland on 01773 530500 or alternatively visit the website at [www.leaderflushshapland.co.uk](http://www.leaderflushshapland.co.uk).
