

**Press Release
September 27th 2016**

Meet Metrotile at industry events

Metrotile UK will be exhibiting at two more industry trade shows before 2016 comes to a close. Contractors, specifiers and housing professionals across Britain have a chance to find out more about Metrotile's lightweight steel roof and cladding systems at events in Aviemore, Scotland and London.

On October 4th, the Osprey Arena at Aviemore hosts the SFHA Property Repairs & Asset Management Conference. The conference is aimed at all staff within housing that work in, or are interested in, the maintenance and repairs function of housing associations. It provides a key networking opportunity for anyone interested in providing property and related services to housing associations and their customers.

Those wishing to attend can acquire tickets via the SFHA website [here](#)

The Homes Event, at London's Olympia on November 16th and 17th, brings together local authority, housing association, housebuilder professionals, with their lead advisors, across residential development, asset management and procurement.

Through its industry networks and unrivalled reach, Homes creates personal and business opportunities, providing customers with quality contacts, content and communities.

Homes is a content-rich large-scale event over two days offering all attendees four theatres of excellent presentations and debates and the opportunity to hear from over 100 speakers.

Those wishing to attend can acquire tickets via the Home Event website [here](#)
