## **Children Play Safe at Infant School, with Surfaces from Playrite**

***Pupils of an infant school in Farnborough are enjoying keeping fit and having fun at a new playground installation using a Playrite product as the floor covering.***

Manor Infant School in Farnborough is warm and friendly; it is a special place where all pupils are nurtured and encouraged to do their best. They achieve their potential and enjoy a challenge. The school offers a whole range of opportunities for pupils, their families and the local community.

The school prides itself on offering an exciting, challenging and fulfilling experience to all its pupils and this is reflected in its playground installation. Completed by Fawns Playtime at the end of 2010, the school selected Playrite Matchwinner Velour for the floor covering and a Fawns' Play Trail for the playground.

Fawns has completed a number of installations using Playrite products, and Matchwinner Velour is an excellent choice for schools and playgrounds due to its quick drainage and non-slip surface. Available in a range of bright and fun colours, Matchwinner Velour can be used in conjunction with Playrite Playsafe systems, tested to BS EN 1177 2008 for impact absorption in playground surfacing.

Both Playrite and Fawns Playtime are well established in the play industry and can offer a wealth of experience and advice. Fawns' goal is to offer a very wide range of physical, social and intellectual experiences that allows children of all abilities to increase confidence and learn to enjoy exercise. Products from Playrite, manufacturers of synthetic surfaces for sport, leisure and play, are made to the highest standards and pride themselves on offering excellent customer service.
