

Press Release
February 22nd 2012

RailingLondon Joins The Guild of Master Craftsmen

The beginning of February marks a new era in RailingLondon history, as the company is proud to have been accepted into the Guild of Master Craftsmen. RailingLondon's skilled works and excellent customer service has allowed it to participate and be part of this highly regarded community of craftsmen.

In order to qualify, the company was required to submit confidential references from satisfied customers, and also receive a visit and inspection from a representative of the Guild. You can see the RailingLondon page on the guild's website (findacraftsman.com) by clicking [here](#).

As a result, clients now have the added security of knowing that we are independently arbitrated by the guild, and can maintain a standard of customer support and skilled service that is second to none.

Click [here](#) to download a pdf, explaining exactly what the Guild is about and how it can benefit you.

To mark this special occasion, Railinglondon is offering free Apple iPads for any balustrade or staircase project orders worth over £12,000 placed before March 30th 2012.
