Renson exhibits at VISION

Renson Fabrications, renowned manufacturer of louvre panels, ventilation and solar shading products, will be showing its products for a healthy environment on Stand 19 at VISION at Olympia, London.

VISION, on June 2nd and 3rd, is the place for architects, specifiers, clients and suppliers to find out about the latest developments in innovative building solutions, through lectures, seminars and exhibited cutting edge products.

Among the Renson products visitors will be able to find out about are acoustic louvre systems including Invisivent and Sonovent acoustic window vents; Loggia sliding panels and the Renson Healthbox extraction unit for DCV.

Michael Reeves, Renson's UK Director, will be among the speakers at VISION.
