

Press Release  
6<sup>th</sup> April 2010

## New Burbidge Website Features Specialist Support Area for Specifiers

***Leading balustrade expert Richard Burbidge has launched a brand new website with a dedicated area for architects and specifiers, packed full of the latest information and guidance on indoor and outdoor balustrade systems.***

Visitors to <http://www.richardburbidge.com> can access the specialist commercial area, which features a whole host of comprehensive product information, as well as downloadable CAD drawings, fitting instructions and inspirational commercial case studies.

Guidance on Building Regulations, British Standards and balustrade testing is also available online.

Plus, architects and specifiers can use the new website to sign up to Richard Burbidge's monthly e-newsletter, Commercial In-site, which provides building professionals with the very latest product and industry news.

David Richards, Specification and Trade Marketing Manager for Richard Burbidge, comments: "The launch of our new website was the ideal opportunity to develop a dedicated professional area for specifiers and architects. Crucially, the new section provides essential information for specifying off-the-shelf balustrade systems for staircases, decks or balconies, in one easy-to-find place. Plus, the monthly newsletter is a great way of keeping up to date with product and legislative developments affecting the specification of balustrade."

To support the redeveloped website, professionals can also keep in touch with Richard Burbidge by signing up to its Twitter feed and following the company on Facebook.

Log on to <http://www.richardburbidge.com> to access the new website or for further information on the bespoke planning service and other support options available to specifiers and architects call 01691 678351.
