

Press Release
December 4th 2014

Ronacrete joins RIBA CPD Providers Network

Ronacrete, the UK market leader in resin bound surfacing, has joined the RIBA CPD Providers Network and can now offer a second RIBA Approved CPD to architect firms.

The CPD entitled ***SuDS Compliant Permeable Paving Resin Bound Surface Systems*** has been assessed by RIBA and categorised under the core curriculum subject.

*Designing and building it: design, construction, technology and engineering
Climate: Sustainable Architecture, Knowledge level, General awareness.*

The learning outcomes from the CPD will be a knowledge, awareness and understanding of:

- resin bound and tree pit systems
- benefits of permeable paving
- substrate build-up
- SuDS
- resin and aggregate selection
- various test methods
- specialist contractors.

Guide to Specifying Modified Screeds

Ronacrete can also offer the RIBA Approved CPD *Guide to Specifying Modified Screeds*, this will be presented at the RIBA roadshow at Milton Keynes on 9th December.

In house CPD

Ronacrete's technical team is also happy to present the RIBA Approved CPDs in the workplace. Further information about RIBA CPDs and other CPDs available can be obtained by visiting the Ronacrete website or by contacting Ronacrete on 01279 638700 or email tech@ronacrete.co.uk
