

Press Release
July 12th 2021

Safety Letterbox Company prides itself on quality.

With over 35 years of UK Manufacturing experience, The Safety Letterbox Company has become the UK's Leading Manufacturer & Designer of Mail and Parcel Boxes.

The company design the best solution based on ensuring that a high quality, attractive and long-lasting product is available to suit the market's needs.

Working with Safety Letterbox as the UK's market leader is not just about the design and specification of the product they produce, but enabling the best value for money through the additional 'value added' benefits they provide.

- An experienced and knowledgeable advisory service
- No obligation AutoCAD drawings
- Friendly, professional and prompt response times in all departments
- Proactive managing of projects taking ownership
- An ISO 9001 and an Investor in People business providing strong work ethics and best practice
- After sales service from a trained and efficient team in the UK
- A responsible and reliable supply chain as a reputable UK manufacturer
- Quality products that are built to last, reducing overall waste
- A full turnkey solution with full installation service available

Investing in a quality product from a UK business enables re-investment to create and secure UK jobs through innovation and growth. In turn this secures the skills and products required within the UK and helps us all prosper.

The Safety Letterbox Company is firmly committed to producing the best product at the best price with the best service to ensure it is the go-to trusted place for all your mailbox and parcel box requirements.
