Servaclean working with Daisy Green venues to help bring Australian culture to London

Since April 2018, Servaclean has been working alongside Australian company Daisy Green as it expands its market share in the South of England with new restaurants across the capital.

Daisy Green cafés and restaurants are bringing the Australian food and coffee culture to London in a relaxed environment, creating iconic spaces that become regular meeting points for their customers.

Using its bar design & planning expertise, Servaclean has worked with the client to help them maximise their bar space and make the customer experience as smooth as possible, all in the same guise and with the same easy-to-use bar system.

In the past 18 months, Servaclean has helped Daisy Green's owner Prue Freeman with the following venues:

- Beany Green
- Daisy Green Paddington
- Daisy Green Rooftop Pavilion
- Barbie Green
- Scarlett Green
- Timmy Green
- Ziggy Green.

Prue has been very complimentary of the Servaclean service saying: "I've used Servaclean on all my Daisy Green venues and their attention to detail from planning through to installation stage is second to none."
