Servaclean team proud of past outdoor bar projects

There has been much focus this year on outdoor venues for the hospitality industry, so Servaclean decided to look back at past outdoor bar projects the team has completed.

One project they feel is worth shouting about is the outdoor garden bar for [The Bear of Rodborough Hotel](#) in Stroud, part of the Cotswolds Inns & Hotels group. Servaclean supplied its BARFrame fitted bar structure and fitments including bar counter with integral glasswash facility to The Bear Pavilion back in June 2017.

There are many benefits to an outdoor garden bar, none more so than the ability for customers to enjoy outdoor spaces. For the bar owner however, it can mean you can serve customers quicker with shorter queues, in current climates offer social distancing and also maximise any space you may have onsite, not limiting yourself to purely internal serving areas.

Servaclean has worked with this client on several bar projects for its hotels, supplying bar equipment in some of their other venues across the country.

For more information on outdoor bar equipment or to find out how Servaclean can help you get the most out of your bar operations, get in touch by phone on 01274 390038 or by emailing info@servaclean.co.uk.
