SunSeeker Offers Special Price on New UltraSlim Doors

SunSeeker Doors, manufacturer of Bi Folding Doors Systems since 2003, has announced that orders for its latest design – UltraSlim doors – received before the end of July will be charged at the same price as its traditional bi-folds.

The price includes site survey, custom manufacture, delivery and installation (within SunSeeker's geographical area, see website for full information).

SunSeeker UltraSlim was launched this Spring to complement the product range: traditional aluminium framed bi-folding doors and innovative Frameless Glass Doors, developed and manufactured in the U.K. SunSeeker Doors is believed to be the only door company in the UK and Europe (if not the world) to manufacture and install the full range of fully retractable doors.

UltraSlim Doors have the slimmest side frames and sight-lines of any comparable doors. The aluminium frames, only 19mm, are available in over 100 colour choices.

More information about SunSeeker Doors products can be found at www.sunseekerdoors.co.uk. Home-owners who want to take advantage of the offer need to hurry – the offer ends on Sunday July 31st.
