## **The Safety Letterbox Enhances Luxury at One Ocean**

***One Ocean, an exclusive luxury development on Paradise Island, The Bahamas, offers a premier living experience with 74 finely crafted apartments and penthouses boasting panoramic views of Nassau Harbour and the Atlantic Ocean. To enhance the lifestyle of its residents, the One Ocean Association partnered with The Safety Letterbox Company to design and install a state-of-the-art mailbox system tailored to the property's elegant aesthetic and functional needs.***

### **The Challenge**

Creating a mailbox system for One Ocean required more than practicality. The solution had to align with the property's upscale reputation, complement its refined architecture, and meet residents' expectations for security and convenience.

### **The Solution**

To meet these demands, The Safety Letterbox Company collaborated closely with the One Ocean Association to design a bespoke mailbox system featuring two banks of 40 custom-made mailboxes. Using the MODA STS model, we incorporated:

- **Stainless Steel Finish:** Corrosion-resistant and polished for durability in coastal environments, perfectly matching One Ocean's sophisticated design.
- **Flush, Wall-Mounted Installation:** With hidden supports for an uncluttered look that enhances the property's luxurious ambiance.
- **Advanced Security Features:** High-security QHDK locks to safeguard mail, providing peace of mind for residents.
- **Bespoke Engraving:** Customised to reflect One Ocean's branding and luxury standards.

### **The Benefits**

*For One Ocean Association:*

- Seamlessly integrates with the development's high-end aesthetic, enhancing its image as a premier property.
- Durable, low-maintenance materials tailored for the coastal environment.
