## **Tudor Roof Tiles travel far**

***Two recent projects thousands of miles apart are showcasing Tudor Roof Tile products to stunning effect.***

A bell tower in Canada represents the first export order supplied by Tudor Roof Tiles via its US agent Century Imports. Romney Red ornamental tiles, in the fishtail design, were chosen.

Closer to home, craftsmen from Whites Roofing in Risbury, Herefordshire, have completed a turret on a private dwelling in Shropshire using Tudor's Arris Hips.
