## **Urban Front Celebrates 20th Anniversary**

Urban Front, a family-owned business based in Buckinghamshire, UK, is proud to mark its 20th anniversary in designing and manufacturing handcrafted, high-security doors. Since its establishment in 2005 by Elizabeth and Nabil Assaf, the company has been at the forefront of innovative design and superior craftsmanship, delivering bespoke doors that seamlessly blend aesthetics with security.

To commemorate this significant milestone, Urban Front hosted a celebratory event, bringing together friends, colleagues, suppliers, and specifiers. The gathering served as a testament to the strong relationships and community the company has cultivated over the past two decades.

Reflecting on their journey, Urban Front revisited their first prototype door from 2005, a retro design known as the Ferrara. Initially created for their showroom, this door was purchased by family friends and has remained in place for the past two decades, exemplifying the lasting quality and timeless appeal of their products.

Urban Front's success is rooted in their passion for bespoke craftsmanship and innovation. Each door is meticulously crafted in their Buckinghamshire workshop, ensuring the highest standards of security and aesthetic appeal. As they celebrate this significant milestone, Urban Front remains committed to pushing the boundaries of design and functionality in the door industry.

For more information about Urban Front and their range of bespoke doors, visit their official website at <https://www.urbanfront.com>.
