17th October 2008

Big Discounts on Big Brand Catering Equipment, buyers should check out CKS online specials

CKS (Container Kitchen Systems) is expanding its online catering equipment sales, www.cksltd.co.uk, and is using a series of special offers to promote the new service. The first offers include big discounts on prime cooking equipment from leading manufacturers, some offering more than 50% off the list price.

"We're building up the site's portfolio all the time," confirms Will Kingston of CKS. "We expect to have over 200 lines very soon." The company's products include cooking, holding, refrigeration and prep equipment, as well as accessories.

Buyers who aren't sure which product to select can call or email CKS for expert advice. The company also offers a full installation service and a variety of preventative maintenance schemes.

Most of the equipment on offer is brand new, though occasionally good quality second hand equipment is available, with limited warranties.

The latest special offers include the Eloma B623 Joker combi at £2,457 (RRP £4,095); the Falcon Dominator G2151OT Open Top Fusion Range at £1,428 (RRP £2,975); and the Falcon Dominator G2101 Six Burner Oven Range for only £1,050, which is well under half price compared to the RRP £2,705 – representing a massive discount of over 60%.

CKS is one of the UK's leading online catering equipment suppliers, offering a complete sales and after-sales package. The company also offers a professional kitchen installation service, operates a catering equipment maintenance division and supplies a wide variety of temporary kitchen facilities. For more information, brochures and details, contact Container Kitchen Systems direct, by phone on 0845 812 0800, email sales@cksltd.co.uk or on the web at www.cksltd.co.uk.
