Integral Venetian Blinds are the Perfect Solution for Glazing from Phoenix Blinds

Phoenix Blinds supplies quality integral Venetian blinds ideal for commercial and residential installation, manufactured by Holis Industries Ltd.

Integral Venetian blinds are the perfect glazing partner for residential, commercial, educational and medical buildings, oblivious to dust, moisture and abuse, blinds can make a positive contribution to improving the energy efficiency, light and acoustic properties of most buildings.

The blinds have been designed with safety in mind with no external cords to compromise safety or exposed slats to attract dust or damage, they are operated simply by a magnetic slider positioned on the glass or electrically by remote operation.

Sealed within the glazed unit, integral blinds are the perfect refurbishment solution, by controlling the diffusion of natural light, reducing solar gain and sound, blinds can help in stabilizing the ambiance of the home or workplace, improving its all year round functionality reducing use of excessive artificial light or air conditioning.

Manufactured by Holis Industries Ltd, a leading international manufacturer of all types of blind systems, the blinds are designed for 18, 20 or 25mm glass units and are available in a choice of 18 colours including woodgrain, white, black and metallic finishes.

Blinds are manufactured to order and shipped direct to a network of approved glass distributors for assembly into the sealed unit and then dispatched to the installer for installation.

For the specifier integral blinds are an ideal opportunity to include a low maintenance solution to the project that will improve the performance and privacy providing comfort, elegance and style at minimal cost.
