Press Release
30th June 2009

Jacuzzi Nexus Suite

Jacuzzi UK launches the sophisticated Nexus Suite as part of their specialist Designer Range.

This distinctive suite with its aerodynamic lines and a selection of waste covers in four colours, is both dynamic and sophisticated. Combine these good looks with the latest technology and you have an innovative suite that will be at home in the most contemporary of surroundings.

Basins, bidets and WC's interlock and connect to make a single statement. Basins and bidets within this suite feature a new system that seals the bowls using a standard pop up mechanism. This whole system is then cleverly compacted to fit neatly inside the semi and full pedestals.

Each geometrically shaped basin comes with a black, white, red and chrome waste. Simply change your waste cover and accessories to refresh the look of your bathroom. Choose from; 70 cm basin, 65cm basin, 60cm basin, 48cm cloakroom basin (0, 1 tap hole), 45cm and 55cm deck mounted vanity basins (0 tap hole).

Both full and semi-pedestals are available to suit the 60cm, 65cm and 70cm basins.

A close coupled pan and shrouded cistern with top flush action, wall mounted pan, back to wall pan, wall mounted bidet (1 tap hole), and back to wall bidet (1 tap hole) complete the look. Practical features include a hygienic antibacterial finish on the toilet seat, and soft close feature for that extra touch.

The Jacuzzi Designer Range encompasses whirlpool baths, shower enclosures, steam cabins, bathroom suites, brassware, furniture, and accessories and is sold exclusively through specialist bathroom retailers throughout the UK.
