Jacuzzi New Helios Suite

Leading bathroom manufacturer Jacuzzi UK introduce new elegant and sophisticated Helios Suite.

The new Helios suite combines elegant styling with clean lines for a contemporary yet sophisticated look. A ceramic clicker waste cover gives an uninterrupted finish to the circular inner basin and the gentle taper on the basin edge softens the square exterior of the bowl. Couple with the ultra stylish Argusto bath for deep relaxation and immense pleasure.

Choose from; 56cm basin, 66cm basin, and 48cm cloakroom basin (1 tap hole). Both full and semi-pedestals are available to suit all three basins.

A close coupled pan and dual flush cistern, wall mounted wc pan, back to wall pan, wall mounted bidet (1 tap hole), and back to wall bidet (1 tap hole) complete the look. Practical features include a hygienic antibacterial finish, on the toilet seat and antibacterial soft-touch flush button on the cistern. The optional soft close feature on the seat adds the finishing touch.

With recently launched bathing and showering products, the Jacuzzi® Bathroom Collection encompasses a comprehensive collection of whirlpool baths, soaking baths, shower enclosures, bathroom suites and brassware and is available through specialist bathroom retailers throughout the UK.
