

**Press Release**  
**12<sup>th</sup> September 2008**

## **SMP at the forefront of playground equipment**

***SMP Playgrounds are at the forefront of manufacturing and designing innovative eye catching playground equipment.***

Once again SMP are pushing the boundaries unveiling brand new products that have never been seen before by the public. There is a selection of ground breaking new designs for children of all ages: The Zingo ranges for 2- 7yr olds, a range of equipment that promotes child development and encourages children to think for themselves offering a unique play experience. The modern, bright appearance of Zingo, transformers any play area.

Also on show will be the long awaited expansion of the popular Nexus range of equipment for older children, ages 7-14 yrs old. These children demand challenge, excitement and stimulation. SMP delivers by producing additions to the exciting innovative Nexus range that channels and encourages the abundant energy always present in older children. With its phenomenal appearance and versatility it is easy to see why Nexus excites children.

This is an exciting time for SMP as they continue to cater to the demand for dynamic and long standing equipment.

What better place to showcase these never before seen products than at the IOG Saltex event in September, the first ever installation and public display of these new products will be on show, visit SMP at stand B19 on the main concourse.
