## **Concrete Garages a New Way of Doing Business**

***What's the big secret? Why do all the leading brands of concrete sectional buildings candidly withhold their on-line prices from the consumer?***

In this modern world of information at your fingertips why do the G3 group of manufacturers purposely conceal their prices? It isn't from a lack of resources, one company indeed is PLC owned!

Well, the veil has been lifted by a young entrepreneur Nick Paice and his company The Garden Buildings Centre (Chesterfield) <http://www.4concretegarages.com>

Log-in, look-up and gain a price for a variety of concrete buildings in literally seconds wherever you may live in the UK.

Nick Paice commented "As an independent distributor we like to think of our business as a place where modern technology meets traditional values to give the customer the best of both worlds. And all of course, at the best possible prices! We offer our customers unbiased and impartial advice so that the most appropriate model choice is made first time, every time! So, whether you desire a simple yet secure outbuilding or shed for your motorbike or you are a council specifying a battery of garages you can be rest assured that our experts are at hand to assist with all your concrete building requirements"

"Whether you're a seasoned Internet surfer, used to buying goods and services on-line or a relative novice to this streamlined, modern way of doing business you can be reassured that behind our 'cyberspace company' lies a traditional and long-established family business with over 30 years experience of the garden buildings industry."
